

At Aviation Avionics and Instruments Inc. and Mingo Aerospace LLC, we are fully committed to a zero-defect, customer-first philosophy. This commitment is demonstrated through our consistent delivery of the highest quality repair, overhaul, and manufacturing services for aerospace components.

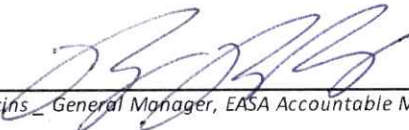

We achieve this by strictly adhering to the following guiding principles:

- Promoting safe and secure work practices for our employees, our community, and the environment;
- Meeting or exceeding customer expectations by delivering products and services aligned with quality, precision, and reliability;
- Continual improvement through employee training, robust internal controls, and full compliance with the requirements defined in our established Quality Management System.
